

Kathleen Li

West Lafayette, IN 47906 | 646-322-3451 | li5197@purdue.edu | kathleenli.tech

Education

Purdue University, West Lafayette, IN (August 2024 - May 2028)
B.S. in UX Design, Minor in Computer Science GPA:3.79

Skills

Design: User Research | Usability Testing | Journey Mapping | Heuristic Evaluation | Prototyping

Tools: Figma | Framer | Clip Studio Paint | Procreate | Google AI Studio

Technical: React | HTML | CSS | JavaScript | C | Java | Python

Professional Experience

inline, Taipei, Taiwan (Remote) (May 2026 - July 2026)

Product Design Intern

- Conducted competitive analysis of 3 competitor apps, surfacing 3 recurring opportunities for features to differentiate the product roadmap within the market
- Led 8 usability testing sessions for user feedback to guide prototype iterations that transitioned from general usability to additional feature expansions within 2 weeks
- Pitched 3 must-have features to development team to support product's unique position in market

Purdue Stack, West Lafayette, IN (January 2026 - May 2026)

University Research Platform UI/UX Designer

- Synthesized cohesive interfaces to address conflicting needs from student and faculty users
- Produced 5+ prototypes annotated with 20+ interactions to streamline developer handoffs

UX Projects

Journey Map Maintenance AI Agent Implementation (January 2026 – May 2026)

- Designed AI agent concept through secondary research and competitor analysis that sponsor advanced to beta a month after handoff
- Directed communication between team, sponsor, and 5 interviewees to maintain alignment of progression and interviews to understand current platform features and needs throughout semester
- Mentored 3 junior designers on project standards, improving workflow and output quality of artifacts

Frogslayer: Kiosk Interface Guidelines Construction (August 2025 - December 2025)

- Co-led a 6-person team by scoping tasks for efficient progression through secondary research, competitor analysis, and usability testing
- Developed guidelines for kiosk interface designs that were adopted as the first set of guidelines which was continued the semester after
- Facilitated biweekly meetings and updates to meet deliverable expectations with 0 scope changes

Research

The Data Mine, Purdue University, West Lafayette, IN (August 2026 - Present)

Undergraduate Data Science Researcher

- Collaborating with Feenix Group on a web-based Minecraft server hosting platform in a group of 15 other researchers for users to create and manage their servers without an administration background

Extracurriculars

AAARRCC, West Lafayette, IN (August 2025 - May 2026)

Lion Dance Team Event Coordinator Officer

- Proposed and implemented choreography revisions based on team feedback
- Spearheaded 3+ inter-organizational performance collaboration in 5+ events of ~200 attendees
